How it works for Mentors

WHO WE ARE?

Seed to Oaks is leading a movement of social good through the local church by helping neighborhoods address their most urgent needs, such as health, jobs, and education. Job One is Seed to Oaks employment training and placement initiative that is operated through local churches, in collaboration with local businesses.

THE BENEFITS OF MENTORING

- Feeling satisfaction in helping someone to achieve their goals.

- Learning new and developing existing skills.

- Having fun and meeting new people.

Become a Job One Mentor

Develop a relationship with a Job One Mentee. Job One mentee is a recently hired employee who has been placed into a full-time job with a Job One Business Partner. Mentors help develop life skills and navigate challenges they experience.

Time and Commitment

We ask mentor to commit to a minimum of 8-12 weeks. The times and days are agreed upon by the mentor and mentee, but it is expected that you will meet initially for one and a half hours, then reduce to one hour per week after the first meeting.

Skills and Aptitude

An effective mentor has good communication skills with a wide range of people, including the ability to form effective relationships. They have the ability to enthuse and motivate people. They also understand confidentiality and when this should be breached.
