Job One

Become the economic engine that puts people to work so families can thrive.

Whole Health

Host free clinics that address health needs within your community.

Oaks Academies

Support parents and their children to be prepared for the coming academic school year.

WHO WE ARE?

Seed to Oaks is a non-profit that brings real and lasting community change through a collaboration between local churches, businesses and civic agencies, filling the space between the three. We help socially-driven pastors and professionals connect and mobilize their resources and influence through guided social initiatives. These initiatives are proven, strategic and straightforward to implement – designed as a sustainable means for community change that is real and measurable.

WHY LAUNCH A GUIDED INITIATIVE?

1. A powerful application of the Church's gifts.
2. A kingdom use of your life's work and influence.
3. A proven approach for lasting social change.
4. A gain of the public trust due to your devotion to good.
